(Q1) - Questions with(out) numbering

Numbering:

```
\question{Question numbered}
```

```
\label{question:A}
```

The answer of the question.

No numbering:

```
\questionl{Question not numbered}
```

```
\label{question:A}
```

The answer of the question.

(Q2) - How do I add a new question and answer?

It's easy - just type:

```
\question{Question}
```

```
\label{question:A}
```

The answer of the question.

(Q3) - Can I redefine the color of the boxes?

Yes you can! You even can change the color of the question itself. Furthermore, you can adjust the „-“ between the numbering and the question.

Blub?

Bli bla bla blub!
